

COMPTER

Je compte jusqu'à... 20 (04)

• Relie suivant l'exemple :

The image shows a matching exercise for counting to 20. In the center, there is a vertical column of numbers: 15, 10, 11, 13, 12, 16, 14, 19, 17, 18, and 20. On either side of this column are boxes, each containing a ten-frame (a row of 10 squares) and some white blocks. The number of white blocks in each box corresponds to the number in the central column. Red arrows connect each number to its corresponding ten-frame. A black path is drawn through the numbers, starting at 15, going to 10, then 11, 13, 12, 16, 14, 19, 17, 18, and finally 20.
